#### Education

CAD and Business classes;  
working towards B.S.B. focus on Small Business and Entrepreneurship  
at University of Phoenix (main campus)

## Key Qualifications

I have a broad range of experience through many disciplines including but not limited to communications, design, and business. I have experience with design/drafting for several transportation and telecommunication projects including light rail, commuter rail, and bus systems; experience in design/drafting within the resort and recreation field, and most recently in the A/V industry. Below is a list of work experience and representative projects I have assisted in.

## Work Experience:

2009

Wahsilwoc Whistle Ocarinas

## Business Owner / Artist:

Designed and engineered small pocket flute / ocarinas out of the clay medium. Have successfully interpolated design elements and costs to make a profit through individual sales.

(June) 2008 - present

Concrete Made New

## Contractor / General Worker:

Fulfilled duties relating to the following: Concrete floor prepping - Used machinery, diamond grinders, and other supplies to prepare floors for proper bonding of epoxy and polyurethane coatings. Painting - Applied many techniques in double rolling / brushing to provide streak free glossy and satin finishes. Communication - Spoke with clients and relayed information of their wants and needs to my manager / boss. Learned discipline through working morning shift from 5am till noon.

More recently have moved towards creating an online store to sell coating kits and other supplies through the internet to increase sales revenue and diversify the customers / business.

(July) 2008 - present

Audio Video Resources

### Audio / Video / Controls Systems:

Tasks fulfilled as an auto cad Technician included production of many various types of one-line diagrams for audio, video, and control systems, as well as ceiling and floor plans w/ equipment layouts, and rack elevation drawings. This job has required communicating with design engineers, maintaining files and folders associated with various jobs, redlines, interpreting field drawings, and applying updates to as-built packages as necessary.

2004- (May) 2008

Lamoreaux Group Engineering

Transit & Telecommunication:

I have served in an Engineering Technician position, responsible for CAD production. Each of the following included: block diagrams, overall network topology, station layouts, details, raceway & cable schedules and, in some cases, equipment rack elevations and equipment layouts.

Caltrain CCTV Project.

Downtown East Valley LRT Extension (Santa Clara Valley Transportation Authority)

Sacramento Regional Transportation CCTV System

Caltrain Public Address System Upgrade

Santa Clara Valley Transportation Authority Southline Stations Upgrade Project

Sound Transit Audible Sign System

Denver RTD Communication System

Caltrain WiMax Project

Resorts & Recreation:

ZipRiders

Park City, UT

Sno Bird, UT - Responsible for helping w/ design and prepared details for spiral staircase on 75ft structure.

Icy Strait, AK

Heavenly Valley, CA

Wildcat Mtn, NH

Grindelwald Resort, Switzerland

2004-2006

## The Church of Jesus Christ of Latter-Day Saints

Volunteered and fulfilled an honorable, full-time, 2 - year mission for my church in New York City (Manhattan) and surrounding areas. I learned how to communicate well with others and grew in self-discipline and desire to be an outgoing individual with high moral and ethical standards. I learned how to work well in groups and on an individual level as well.

1998-2004

Alpine Gems and Minerals

General worker and forklift operator.

Duties included stacking and loading pallets with stone, prepping for freight, mining stone, drilling, blasting, and salesmanship through local tourist venues.

2002-2003

Convergys Corporation

Telemarketing:

Worked through the mode of telecommunications to offer Blue for Business (an American Express credit card) for small businesses throughout the country.

Also, worked providing sales and telephone assistance in completing orders over the phone for various unrelated items (Inbound / Outbound).

Other Interests and Qualifications:

I am an Eagle Scout and enjoy all outdoor activities.

I enjoy pottery/ceramics as a hobby and I have designed several new models of small flutes and ocarinas out of clay. I have mastered them to where I can sound out any song within their range.
