SALT LAKE

Lee H. Sim, P.E.
Division of Water Rights
1636 West North Temple
Salt Lake City, UT 84116

Dear Lee:

The 1989 Commissioner's Annual Report for the Pot Creek Distribution System just arrived. While it is still fresh in my mind, I thought a few comments would be appropriate.

First, I appreciate the willingness of you and your staff to work with us to resolve the problems that are encountered. So far, the problems have been fairly easy to deal with and I would like to keep it that way.

It appears that the Distribution System Meeting could be made more meaningful if the Water Commissioner Report were made available for review prior to the meeting. Perhaps the report should also contain the travel and contract service expenses so that meaningful projections could be made for the following year. This may put a burden on the commissioner as far as time is concerned but it would make the meeting more beneficial for me. In addition, this would facilitate the finalizing of the Financial Statement in a more timely manner.

As indicated after the meeting, we are researching the question of priorities for the water stored prior to May 1. We will keep you informed of our findings.

Thank you again for your cooperation.

Sincerely,

Edward W. Blank, P.E.
