1636 West North Temple, Suite 220
Salt Lake City, UT 84116-3156

Re: Pot Creek Administration

Dear Mr. ^{Bob}Morgan:

Please accept my apology for being so late in responding to your letter of February 11, 1991, concerning the proposal for administration of Pot Creek.

I accept your proposal for 1991 and agree to pay a 1991 assessment of up to \$550.00. It occurs to me that perhaps we should re-draft the 1958 Pot Creek Agreement to reflect the situation as it pertains now and would urge that you have your engineer in the area contact Mr. Ed Blank in my Steamboat Springs office to see if the two of them can develop a draft for our consideration.

I look forward to a more equitable administration of Pot Creek for the year 1991.

Sincerely,

Jeris A. Danielson
State Engineer

JAD/pjl

cc: Ed Blank, Division Engineer
