WATER RIGHTS  
SALT LAKE

April 1, 1998

Robert L. Morgan  
State Engineer  
Division of Water Rights  
PO Box 146300  
Salt Lake City, Utah 84114-6300

RE: Reply to Reconsideration of United States Department of the Interior of  
Application Numbers 55-4292 (a21033) and 55-4293 (a21034)

Dr. Mr. Morgan:

In reply to The Request for Reconsideration filed by The Department of the  
Interior Remund Ranch and Edmund Sperry by and through their representative  
offer the following:

The decision reached heretofore by the State Engineers Office implies that the  
point of diversion of the water referred to will drawn from a different location and  
therefore will not be drawn from the original location. Retirement of the irrigated  
land is implied by the original decision. No further action by The State Engineers  
Office is necessary.

Thank you for your attention.

Sincerely,

Ron Auth, Representative for the Applicants
