Re: Santa Clara Distribution System, Account # 49-7 & 49-9

Dear Mr. Ward:

Pursuant to our conversation this date and a request to research the above numbered accounts on the Santa Clara system we have discovered that the basic water right for this account has been disallowed in the determination of water rights. Water User Claim 81-71 originally appeared in the name of Aaron Larson, State of Utah, and Albert Cain for a right to divert a high-water right from the Santa Clara River. Apparently, this water right was abandoned many years ago.

It will be my recommendation that the water account in the name of Terracor be deleted from the system records and that the outstanding accounts of: (49-7) \$186.58 and (49-9) \$14.76 be removed from our records. If there are any problems in accomplishing this action we will notify you immediately.

If you have any questions please contact either Lee Sim, Distribution Engineer, Phone 538-7380, or myself at 586-4231.

Yours truly,

Gerald W. Stoker, P.E.  
Area Engineer/Manager
