RR # 1, Box 9
Fairview, UT 84629

Dear Lowell:

We have recently discovered that you are not currently enrolled in the Public Employees Retirement System. This is an oversight on our part because of changing regulations over the past 2 years. Money was budgeted to have you put on the retirement system; however, we failed to have you fill out an enrollment form so no money has been put into your retirement account yet. This problem can be corrected and your retirement account brought up to date if you will please fill out the enclosed enrollment form.

You began as a commissioner in March of 1989 and at that time you did fill out an enclosed form and money was budgeted for the retirement program but for some reason it was never contributed to your account. In July of 1989, the law was changed and the minimum qualifying salary was increased so you no longer qualified for the retirement program until this year when your salary was raised. Because no money was contributed to your account between March and July of 1989 when you did qualify for the program, we need to have you fill out the enclosed exemption form for that period in order to comply with the retirement program rules.

If you would please return these forms to us, we will see they are directed to the appropriate office. If you have any questions, please feel free to call me at 538-7380.

Sincerely,

Lee H. Sim, P. E.
Directing Engineer
Distribution/Adjudication

*Lee, this
