Henry V. Wheeler
P.O. Box 51
Fairview, Utah 84629

Dear Mr. Wheeler:

I am writing this letter to you in regard to West Milburn Irrigation Company's diversion into the West Milburn Ditch. For the last couple of years at the annual water users meeting the issue has been discussed regarding the parshall flume measuring water into the West Milburn Ditch. From said discussions this parshall flume is not level allowing accurate water measurements to be made. This in violation of Section 73-5-4, Utah Code Annotated 1953, in that this flume has not been maintained.

Therefore, I am requesting that as soon as possible the parshall flume be reset allowing water to be measured and distributed accurately.

Should you wish to meet with me concerning this matter, I would be happy to do so. I would remind you that any delay concerning this matter will be followed by legal proceedings through the Utah State Attorney Generals office. Your earliest response would be appreciated.

Sincerely,

A handwritten signature in cursive script that reads "M. Stanley Adams".
