Route #1, Box 154  
Fairview, UT 84629

Dear Mr. Terry:

Re: San Pitch River Dis. Sys.  
Account 47-3

This letter is in response to your inquiry concerning the 1990 assessments for the San Pitch River Distribution System.

In 1989 the distribution system committee voted to use some of its reserve fund to meet expenses for the operation of the distribution system. Therefore, the assessment that was levied was less than the budget set for the system. This year it was determined that reserve funds could not be used. It was also decided that a deputy commissioner was needed to assist in the collection of data from the new measuring gauges being installed. Because of these two situations, the directors had to increase the assessments to the water users substantially in order to meet the anticipated expenses on the system for this year.

The amount shown on your assessment notice is your correct proportionate share of the 1990 assessment.

If you have any further questions, please contact me at 538-7380 or Stan Adams, Area Engineer at 896-4429, or Don Prestwich, Committee Chairman, at 436-8642.

Sincerely,

A handwritten signature in cursive script that reads "Lee H. Sim".

Lee H. Sim, P. E.  
Directing Engineer for  
Adjudication/Distribution
