Dear Joyce:

Re: Provo River Distribution Sys.
Account 43-81

I am writing in response to your note on the assessment notice that you returned to our office. If there is no use of the water from the Provo River under this account, I agree you should not be paying for water not delivered or used and we will cancel this account. If the water under this original right has not been used for the the last five contiguous years, then the right has been forfeited and you can no longer assert any interest in this water right.

If it is your desire to keep this water right alive then you will have to demonstrate that the water can be put to beneficial use, and the \$10.00 assessment payment is due. Please let me know so we can reflect on our records the status of this distribution account and its associated water right.

The Provo River Distribution system is regulated by the State Engineer under authority of Section 73-5-1, Utah Code Annotated, 1953, as amended to insure orderly distribution of water based on water rights. A budget is set and assessments are made each year to meet the expenses of the distribution system including the commissioner's salary. The budget and assessments are set by the water users at the annual distribution meeting with the State Engineer.

If you have questions concerning the above feel free to call the Provo River Commissioner, Stan Roberts at 801-224-1797 or myself at 801-538-7431.

Sincerely,

John S. Larsen
Water Rights Specialist III
