September 24, 1991

Stanley H. Roberts, Jr.  
Provo River Commissioner  
1675 South 350 East  
Orem, UT 84058

Dear Stan:

I have been putting off writing this letter for some time. However, I feel that to delay the situation will jeopardize the relationship between you and the Division of Water Rights. As you are fully aware, we have not received annual reports for 1985, 1986, 1988 and 1990. The completion of these reports and their submittal to our office for permanent record is part of the duties of every commissioner in the state of Utah.

This neglect is not characteristic of your performance as a river commissioner. The absence of these reports indicates that there is some problem in either having the data for the reports or having sufficient time to get them prepared. I would offer assistance to you if in fact this office can be of assistance in getting the reports. However, you should be aware that if in fact the reports are not submitted this year that I am prepared to take this issue to the distribution committee for the Provo River system. This issue could have impact on your rehiring as a commissioner.

I hope we know each other well enough so that if there is a problem, we can meet and work out the solution. I look forward to being able to resolve this problem for both the Division and you. Please don't hesitate to call if there is some issue we can resolve.

Sincerely,

A handwritten signature in cursive script that reads "Bob".

Robert L. Morgan, P.E.  
State Engineer
