DIVISION OF WATER RIGHTS

1636 West North Temple, Suite 220
Salt Lake City, Utah 84116-3156
801-538-7240

May 25, 1990

Mr. Stanley Roberts, Jr.
Provo River Commissioner
1675 South 350 East
Orem, UT 84058

Dear Stan:

As you are aware, our Division has been attempting to model the hydrology of the Provo River system in order to provide us with better data on the management and distribution of the waters on the system. We have entered the data from the commissioner's reports from 1950 to the present. However, we do not have the commissioner's reports for 1985, 1986, and 1988.

On several occasions Mr. Lee Sim of this office has requested that these reports be submitted as soon as possible. One of the important duties of the commissioner is to document the deliveries of water that have occurred on the river system. This data is used extensively by this office and numerous others. Therefore, I am requesting that these reports be submitted to the State Engineer's office by July 2, 1990. If you can not meet this deadline I would appreciate it if you would contact me. If there is anything this Division can do to facilitate the completion of these reports, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Bob".

Robert L. Morgan, P. E.
State Engineer
