Re: Provo River Commissioner

Dear Mr. Hansen:

It has come to my attention that it is time to determine the re-appointment of Mr. Stan Roberts, Jr. as Provo Water Commissioner. In my position, as Director of the Department of Physical Plant at Brigham Young University, it has been my privilege and pleasure to work with Mr. Roberts as it relates to flow of secondary, tributary streams originating with the Provo River. I have found him to be very professional and very fair in all of the dealings we have had with him over the past several years.

Without interfering with the function of your office, I do want to take the opportunity to recommend, as far as Brigham Young University Physical Plant Department is concerned, it would be proper to very seriously consider re-appointing Mr. Roberts to this position for a new term.

Sincerely Yours,

Harold J. Anderson
Director
