---

Mr. Perkins,

Last August The Division of Water Rights issued a Notice requiring repair of the head gate and maintenance on the measuring device for the Marshall Ditch. The required work was to be made prior to diverting water in the spring of 2011.

I trust the additional information emailed to you 4/18/2011 provided sufficient clarity regarding the required repairs.

As explained in the Notice issued 8/25/2010 water users on the Marshall Ditch could continue to divert until March 15, 2011. Following that date, users may divert water into the Marshall Ditch upon completion of the required repairs. Please be aware that the Commissioner will tag and close the Marshall Ditch until repairs have been completed. Water users on the ditch will also receive an Order to Cease Use in the mail. The Order to Cease Use clarifies the requirement to discontinue diverting water and outlines the process to re-open ditch once repairs have been completed.

If the gate has already been repaired and shrubs already removed from the flume please let me know at your earliest convenience. Should you have any questions please feel free to call me at (801) 538-7431.

Regards,  
Sue Odekirk
