Larry Maycock
Rocky Ford and Minersville Irrigation Companies
P.O. BOX 141
Minersville, Utah 84752

Dear Larry:

I appreciate your diligence in the past in providing data to the State Engineer's Office regarding the Minersville Reservoir and Rocky Ford Irrigation Company Water. We are in the process of updating flow records regarding the Beaver River and are requesting operational data from Minersville Reservoir.

Currently we have data on Minersville Reservoir Historic Water Measurements spanning from 12/2/1992 to 2/1/2011. Please provide measurements of reservoir elevations made for the remainder of this year, along with release amounts for this past irrigation season. I have provided diversion record sheets, to use for reporting. I understand data may be kept in other formats and may be submitted "as is".

We are requesting data on Minersville Reservoir releases (regular weir readings) below the dam since 2005. Please indicate when the reservoir was spilling (or being drawn down for spring runoff) and if these amounts were made available to the users.

Previously data provided show the Minersville 2009 water issues to be 1 1/8' per share, and Rocky Ford issue at 3' per share. We are also interested in the 2010 and 2011 water issues, (amount per share) for both companies to update the records for 2010 and 2011. If the stakeholder list you provided in 2008 is no longer current, please provide the most current list of individual stakeholders with corresponding shares and totals, as issued to each.

If you are collecting additional or related data on other parts of the Beaver River system, please include that information in a similar format. Blank forms are provided.

I have requested similar data for Kent's Lake and Three Creeks reservoirs. Our current efforts are focused on developing a record of diversion and storage amounts for the Beaver River, additional data requests may be forthcoming.

Subject: Data for Minersville and Rocky Ford

The division appreciates your cooperation and respectfully requests the information be provided as soon as possible, preferably by the end of November 2011. If you have any questions about the data request or format, do not hesitate to contact me at (801) 538-7430 or at MikeSilva@utah.gov.

Regards,

A handwritten signature in cursive script that reads "Mike Silva".
