Re: Assessment Method

Dear Water User:

At the most recent annual meeting for the Spanish Fork Distribution System, a request for additional explanation of distribution assessments was noted. In response this brief explanation has been included with your assessment.

The total assessment amount for the Spanish Fork Distribution System is pro-rated among the users according to the percentage of all delivered river water the user received in the previous irrigation season.

The total assessment amount for the Spanish Fork Distribution System is \$124,000. Strawberry Water Users' Association received 43,975 AF of the 131,797 AF of river water delivered on the system to fill direct flow water rights. Accordingly, the Association's assessment is for \$41,242.

If you have additional questions regarding your assessment please contact me at (801) 538-7431 or Jesse Nelson, Field Services Secretary, at 801-538-7415.

Sincerely,

Sue Odekirk, P.E.
Distribution Engineer
