RE: Establishment of Distribution System Committee

Dear Water User:

As a water user, you are part of the Spanish Fork River Distribution System administered under the direction of the State Engineer. Pursuant to the recently established administrative rules R655-15 defining the creation and operation of river distribution systems, a distribution committee was established by order of the State Engineer for the Spanish Fork River Distribution System. A copy of the order establishing this committee and identifying the participants is attached. Your company/organization has been selected by the water users to have a representative on this committee.

Typically the committee will meet at least twice each year, once before the annual meeting and the annual meeting, which is scheduled for the afternoon of January 29.

Jay Evans was selected by the water users to be the interim committee chairman and will conduct the meetings until a new chairman is selected. Please notify the river commissioner, John Mendenhall, at (801) 798-3612 and/or Jay Evans at (801) 798-3681 as soon as possible to inform them who will represent your company/organization on the committee. You should also report the name of your representative to the State Engineer prior to the annual meeting. Please contact Ben Anderson, Distribution Engineer at (801) 538-7469 or myself at (801) 538-7380 to report this information or if you have questions.

Sincerely,

Lee H. Sim, P.E.
Assistant State Engineer for Field Services
