RE: Salina Creek Irrigation Company  
Change Application No. a-1907

Dear Mr. Mattsson:

Your letter of July 16, 1968, to the State Engineer has been referred to the Price Area Office for reply.

I am enclosing a copy of the above mentioned Change Application for your convenience.

In regards to your question relative to the water listed in paragraph's a, d, and e of the Cox Decree, I have researched all available information and I don't believe these rights were a part of the change, although they should have been.

The change, as you will read, was only to change the maximum and minimum amount of water listed in Paragraph b, and as explained in the explanatory.

The new change should include all the water mentioned in the decree and this will automatically correct the situation.

If you have any further questions, please feel free to write or call.

Yours very truly,

Earl M. Staker  
AREA ENGINEER
