

JES

MINUTES OF THE
UPPER BEAR RIVER DISTRIBUTION SYSTEM
held 1 Mar. 1982, at 1:00 pm, in the
Rich County Courthouse, Randolph, Utah

RECEIVED
JUN 17 1982
WATER RIGHTS

Thirteen members were present, including three from the State, and Walter Scott, the 1981 Commissioner.

President J. Sim Weston conducted the meeting.

Mr. Don Norseth gave a very favorable forecast for the coming water year.

The 1981 financial statement was read and approved.

Mr. Walter Scott gave a report of his work for the 1981 year, and indicated that the drought condition (especially at Woodruff) made the regulation of water even more difficult than usual. He also stated many of the measuring devices are in need of repair.

Mr. Scott indicated his willingness to accept the job for the coming season, if the opportunity were available.

Mr. Ralph E. Argyle made a vigorous complaint relative to the service he got on the Otter Creek.

Mr. Roger W. Peart asked for a break-down on the individual assessments for the year. He also wondered if there were a possibility of having two separate commissioners for creek and river regulation.

Mr. Norseth said no chance to distribute without locking the head-gates.

Mr. Scott made a detailed account of and agreed to take the job at the present wage, if employed for it.

Mr. Roger J. Hatch motioned that Mr. Scott be given the Commissioner job. It was seconded by Mr. Louis M. Stuart.

Mr. Norseth suggested that better communications be had between the Commissioner and heads of the canals, and also that Mr. Scott would contact Mr. Ralph Argyle during the season.

Meeting was adjourned at 2:15 pm.
