This office has received inquiries regarding the dredging of the channel of the Jordan River at 12800 South. A subsequent field examination shows this work is being performed by Salt Lake County under the flood control program.

A hearing to discuss the scope of the work being done and its position in regards to House Bill 79 is to be held Monday, December 6, 1971, in the Governor's Boardroom, State Capitol Building, Salt Lake City, Utah, at 10:00 a.m.

We hope that all interested parties can attend so that all views can be presented.

Yours truly,

Hubert C. Lambert
State Engineer
