East Jordan Irrigation Company  
c/o Bill Marcovecchio  
29 S NORTHRIDGE WAY  
SANDY, UT 84092

RE: SEAA 1299

Dear Bill:

This letter is to remind East Jordan Irrigation Company of the above-referenced notice that was issued earlier this year regarding the replacement and maintenance of the gauging station on the East Jordan Canal. If there are valid reasons for delaying the work required under SEAA 12999 we are not yet aware of them.

Please coordinate the completion of the required maintenance with the water commissioners and myself in order to enable us to maintain the electronic equipment as needed during this process. We recommend the maintenance be completed as soon as possible in order to reduce the risk of damage to equipment or injury to personnel. If you would like to inspect the gage station with us we would be happy to arrange to do that with you.

I would like to hear from you regarding your plans regarding the repairs and maintenance of the gauging station. The maintenance is needed to provide safe and continued operation of the distribution system. We look forward to working with you in getting this maintenance completed. If you have any questions please feel free to call me at (801) 538-7469 or the commissioner, John Larsen, at (801) 943-7836.

Sincerely,

Ben L. Anderson, P.E.  
Water Rights Distribution Engineer  
Field Services

cc: John Larsen, **UL/JR** Water Commissioner

SCANNED TO SEAA
