Salt Lake City, UT 84114-6300

Subject: Water Year 2010 Administration of Central Utah Project, Bonneville Unit, Utah Lake / Provo River Storage Exchanges under CUP Water Right Nos. A40523, A36639, A37093, E398, E4319 and Central Utah Water Conservancy District Water Right Nos. E3100 and E3101

Dear Teresa:

Currently the elevation of Utah Lake is 4488.925 feet, or 0.12 feet below the compromise elevation. Based on the current forecast and the levels of upstream reservoirs it appears that the elevation of Utah Lake will easily cross the conversion line this year. Once the conversion line has been crossed we request that you convert all system storage in Deer Creek and Jordanelle reservoirs to priority storage.

Currently no CUP import water is being held in Utah Lake due to a lack of available space. Utah Lake has already reached the compromise elevation this year.

Please contact me if you have any questions.

Sincerely yours,

Jared D. Hansen, P.E.
Project Manager
