FROM: Jerry Olds *JO*

SUBJECT: Utah Lake Distribution Plan Responses

DATE: March 13, 1992

Attached for your review are the responses to the comments which we received to the October 15, 1991 draft of the proposed distribution plan for the Utah Lake drainage basin. Please review these documents very carefully and provide us with any suggested changes or additions which you would like to make. Please have these comments to us by Wednesday, April 1, 1992.

From our review of the comments it appears that we are perhaps to the point where we can begin to implement the proposed plan, at least on an interim basis. During the next six months we need to develop the implementation strategy and ensure that all necessary measuring devices are operational. I am assuming that this phase of the effort will be handled by the Distribution Section.

I would suggest that we get together and discuss this matter and make the appropriate work assignments to ensure that the plan is implemented in a timely manner. If there are any questions or issues that you would like to discuss, we could also resolve those at this time.
