Henefer, UT 84033

Dear Mrs. Rosenthal:

Re: Weber River Dist. System
Acct. 61-82, Shill & Davis Ditch

We are returning your \$5.00 check #1036 dated March 23, 1993, which we received March 30th. Because the water share you are being assessed for is in the Shill & Davis Ditch Company, you should send payment to them. They are responsible for collecting from shareholders and making payment to us. It would be helpful when you mail your payment to them, you show their account number 61-82 on the memo portion of your check.

The preparation and mailing of assessment notices begins in the second week of January and is completed by April 30th. For that reason the ditch company may not bill you until after they receive their assessment notice from us. We had some staff changes that has slowed down the preparation and mailing of assessments. The Shill & Davis Ditch Company should be receiving their 1993 assessment notice any day now.

If you have any further concerns regarding the assessment, please contact me at 538-7431.

Sincerely,

A handwritten signature in cursive script, appearing to read 'John S. Larsen'.

John S. Larsen
