WEBER RIVER WATER COMMISSIONER

E. Blaine Johnson
Commissioner
Telephone 392-4690

Ogden, Utah
1615 East Shadow Valley Drive
Route No. 4

July 21, 1965

Mr. Don Norseth
Distribution Engineer
Utah State Engineer's Office
Utah State Capitol Building
Salt Lake City, Utah

Dear Don:

This letter is to inform you that on July 19, 1965 my deputy commissioner, Mr. Vic Shaw, and myself called on Mr. John Carman, an officer in the Echo Ditch Company, to discuss the operation of their control gates and measuring device. Mr. Carman was informed that the arrangement the Company has on their control gates may cause problems of distribution but that the State Engineer would not require a change in the set-up if the Company will operate in such a manner as to not cause any distribution problem.

I trust this will work out satisfactorily.

Respectfully yours,

E. Blaine Johnson

E. Blaine Johnson
Weber River Water Commissioner
