Dear John,

Enclosed is a check for Boulderville Ditch Company's 1993 assessment and a 10% delinquency charge. Our previous Secretary/Treasurer, Thelma Butters, had her address changed in 1993 to a PO Box in Kamas. It seems her mail box kept getting knocked down by the snow plows. Our 1993 bill may have been in her mail box on one of the knock down occasions, and lost in the snow. This may explain why she does not remember receiving a bill in 1993. The fact that she is close to 80 years old may also be a factor. If this explanation of why the 1993 bill was not paid is sufficient to delete our delinquency charge then please either cut us a check or credit our account, whichever is easier for you to do.

I would be interested in knowing what our assessment is based on and what the money is used for. This information would allow me to explain to the shareholders where our money is going and why.

Sincerely,

Charles M. Williams
Secretary/Treasurer
