Dear Water User:

RE: Uinta River Storage Schedule - AMENDED ORDER

On October 10, 1990 a reconsideration hearing was held in Roosevelt, Utah concerning the Uinta River Storage Schedule Order dated August 30, 1990. After careful review of the information presented at the hearing, the storage schedule order has been amended as shown below.

As previously stated, the purpose of this schedule is to resolve questions regarding storage rights on the Uinta River. The following schedule does not list all of the diversion rights on the river but only those associated with the major storage facilities.

Therefore, in accordance with Sections 73-2-1 and 73-5-3 of the Utah Code Annotated, 1953, as Amended, it is hereby ORDERED that the flows of the Uinta River be diverted to storage according to the following priority schedule:

PRIORITY

OURAY PARK IRRIGATION COMPANY

Diversion of 10,000 ac/ft. from Uinta River between 1/01 and 12/31. Diversion to irrigation and/or storage in Pelican Lake and Cottonwood Reservoir.

NOTE: This is part of the total 10,000 ac/ft. allowed under A9670a. Additional diversion to storage allowed at this priority between 11/2 and 3/31.

This order does not include Bullock Draw Reservoir because there are no storage rights in it from either the Uinta or Whiterocks Rivers. Its source of water for storage is Deep Creek (43-720, A11550, a9880). Bullock Draw Reservoir was purchased by the Division of Wildlife Resources and the Ouray Park Irrigation Company indicated their storage rights had been moved into Cottonwood Reservoir. However, we have no record of such a change application being filed or approved.

This amended order is subject to the provisions of Rule R625-6-18 of the Division of Water Rights and to Sections 63-46b-14 and 73-3-14 of the Utah Code which provide for the filing of an appeal with the appropriate District Court. A court appeal shall be filed within 30 days after the date of this Decision.

Sincerely,

Robert L. Morgan, P. E.
State Engineer
