Dear Water User:

RE: Uintah River Storage Schedule - ORDER

On April 27, 1990 a hearing was held in Roosevelt, Utah concerning the proposed Uintah River Storage Schedule dated March 30, 1990. After careful consideration of the information presented at the hearing and another review of the water rights on record, the storage schedule has been modified as shown below.

As stated on the proposed schedule mailed on March 30, the purpose of this schedule is to resolve questions regarding storage rights on the Uintah River. The following schedule does not list all of the diversion rights on the river but only those associated with the major storage facilities.

Therefore, in accordance with Sections 73-2-1 and 73-5-3 of the Utah Code Annotated, 1953, as Amended, it is hereby ORDERED that the flows of the Uintah River be diverted to storage according to the following priority schedule:

OURAY PARK IRRIGATION COMPANY
Diversion of 10,000 ac/ft. from Uintah
River between 1/01 and 12/31.
Diversion to irrigation and/or storage
in Pelican Lake and Cottonwood
Reservoir.

NOTE: 6,000 ac/ft. of storage is allowed at this
priority. This is part of the total 10,000 ac/ft.
allowed under A9670a.

This order does not include Bullock Draw Reservoir because there are no storage rights in it from either the Uinta or Whiterocks Rivers. Its source of water for storage is Deep Creek (43-720, A11550, a9880). Bullock Draw Reservoir was purchased by the Division of Wildlife Resources and the Ouray Park Irrigation Company indicated their storage rights had been moved into Cottonwood Reservoir. However, we have no record of such a change application being filed or approved.

This Order is subject to the provisions of Rule R625-6-17 of the Division of Water Rights and to Sections 63-46b-13 and 73-3-14 of the Utah Code Annotated, 1953 as amended, which provide for filing either a Request for Reconsideration with the State Engineer, or an appeal with the appropriate District Court. A Request for Reconsideration must be filed with the State Engineer within 20 days of the date of this Order. However, a Request for Reconsideration is not a prerequisite for a court appeal. A court appeal must be filed within 30 days after the date the Request for Reconsideration is denied. A Request for Reconsideration is considered denied when no action is taken 20 days after the Request is filed.

Sincerely,

Robert L. Morgan, P. E.
State Engineer
