Dear Gentlemen:

Re: Diversion of Water 2004

In anticipation of the upcoming irrigation season, we are hopeful that properly functioning measuring devices are in place, and that an accurate record will be kept during this year. We are planning to visit the measuring devices at least monthly to download the information, which will subsequently be posted on our web site. So that we are aware when the record will begin, would you please notify us when water is taken into your canals.

If you have any questions, or would like to discuss our activities for the 2004 season, please feel free to contact me. As always, your cooperation is appreciated.

Sincerely,

Mark P. Page
Regional Engineer

Pc: Jerry Olds, State Engineer
Lee Sim, Assistant State Engineer for Distribution
