WATER RIGHTS
SALT LAKE

July 27, 2001

To: Robert Morgan, State Engineer
PO Box 146300
Salt Lake City, Utah 84114-6300
From: Citizens of Spring Lake, Utah
Subject: Water allocation to Payson City, from Spring Lake.

Mr. Morgan,

Spring Lake is a small Utah community approximately three miles south of Payson Civic Center. There is a small lake, "Spring Lake," which encompasses about 13 acres in the center of our community. With the recent residential development south from Payson, Payson is choosing to exercise their water right out of Spring Lake. We understand that Payson will be able to remove a maximum of 1,400 acre-feet per year from the lake, or 3.3 cubic feet per-second. (Plat Ref. NW 1/4 Sec 29 Twp 9 Range 2 East)

1. We request that some type of meter be required to monitor their outtake.
2. We request that the state engineer establish the current out flow from the lake and determine what impact this would have on the stream. There is approximately 18 miles of meandering stream that flows northwest into Utah Lake.

Sincerely,

Robert J. Bloomer
