WATER RIGHTS
SALT LAKE

Reference diligence claim #13-2215, located on the Promontory peninsula in Box Elder County. The flow of .011 cfs for stock watering has a priority date of 1869 and precedes all other users of water on the Willow Springs area. We are getting less than one gallon per minute because of use of the resource by two other users holding rights with subsequent priority dates.

13-483
13-484

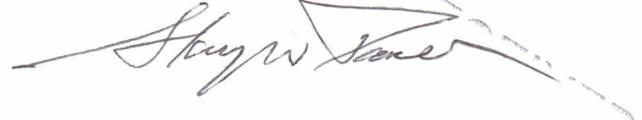

We request full distribution of our allotted water before other users are allowed to distribute water from the spring.

Sincerely

Vernon S Poulsen
Trustee/Owner
