July 27 went to the head gate & turned the interstate off & to Burnt fork on the East side 37 miles O K
July 28 went with Glen to Beaver Meadows & turned the head gate off & to Burnt fork on the west side 37 miles O K
July 29 went to the hoops lake ditches on Burnt fork & to the head gate 23 miles O K
July 31 went to Linwood & Burnt fork for the peoples canal & charley mucks
47 miles 2

This is not a full account of what I have done. Mostly a reminder I usualy take in creeks both going & coming. & the mileage is from one point to another. & I often ride with some one who's ditch I am going to.

Most of them have turned off for haying so those that wont water can have it

I hope this is what you want I am glad to be of service. if there is any thing I can do.

Thanks

Lyle Anderson
