

March 24, 1958

Mr. Earl Lloyd
State Engineer of Wyoming
Cheyenne, Wyoming

Dear Earl:

Re: Burnt Fork

Enclosed herewith is a copy of the minutes of the Burnt Fork-Birch Creek water users' meeting which we prepared in this office. It appears to be what was actually agreed to at this meeting. However, we would appreciate your calling our attention to any changes which you feel are necessary.

In regards to payment of the water commissioner, it is suggested that you bill this office directly for the \$200. It would be entirely satisfactory if you were to bill us for one-third at each of the months during which administration will probably be necessary, i.e. May, June, and July. However, if you wish to delay the billing until the end of July, we would be happy to remit it to you all at once.

I enjoyed visiting with you again at Manila and hope to see you again in the near future.

Sincerely yours,

WDC/eca

Wayne D. Criddle
