August 15, 1957

P.O. Box 169  
Kemmerer, Wyo.

Mr. Emil C. Gradert  
Superintendent, Water Division No. 4  
Fort Bridger, Wyo.

and

Mr. Clifford Johnson  
Assistant Engineer  
Utah State Engineer's Office  
Salt Lake City, Utah

Dear Sirs:

During the period of August 19-23, I plan on working out of Manila, Utah. If you could arrange to meet me there sometime during that period, we could pick out the station site on Burnt Fork; that Mr. Lloyd referred to in his letter of August 12th to Mr. Terry. If this time is unsatisfactory to either of you, please inform me of a time convenient to you, and I will arrange my schedule accordingly.

While in Manila I will be staying at the home of Mr. Jack Ellison, located directly across the street from the U.S.B.R. trailer court.

Yours very truly,

*Jess O. Fagsdale*

CC: Jack M. Terry, District Engineer, U.S. Geological Survey D.F.C.-Denver, Colo.  
George L. Haynes, Jr. Engineer in Charge, U.S. Geological Survey, Bx.442  
Casper, Wyo.
