

February 16, 1961

Mt. Carmel Irrigation Company
Mt. Carmel, Utah

Gentlemen:

Re: Application No. a-3096

At our River Meeting you asked me the status of your Change Application No. a-3096.

Please be advised that this application is in good standing; has just recently received an extension of time from November 30, 1959 to November 3, 1963, to submit proof.

This proof must be made by registered engineer and submitted to this office on or before the above date.

If you have any further questions, please feel free to ask them and we will provide whatever information is available.

Very truly yours,

Donald C. Norseth,
Distribution Engineer
