Mr. W. S. Carpenter,  
Water Commissioner,  
Glendale, Utah

Dear Sir:

RE: LONG VALLEY DIST.

Under separate cover I am forwarding a tabulation showing Long Valley Distribution Assessments as prepared by this office. Please go through this assessment carefully with your adjudicating committee. Correct any existing errors and omissions as to the names and addresses. Check also the rate of assessment and strike from it the name of any user who would not in your opinion benefit; Likewise add the name of any not appearing.

An early return to this office of this assessment with approval or change made by your committee giving the reason why in each case is very urgent for these assessments must go out at once, in order that funds will be made available to pay your salary.

Yours very truly,

2-8

T. H. Humpherys,  
STATE ENGINEER
