

May 8, 1934

Mr. W. S. Carpenter,
Glendale, Utah.

Dear Sir:

RE: LONG VALLEY.

To make closer contact and thus become better advised as to your problems of distribution, particularly in a season of extreme shortage such as this, I have been very desirous of visiting all of the water commissioners. By reason of the stress of work however, this has been impossible.

I am asking therefore, that if your duties are such, and your finances will permit, that you come to Salt Lake City for a conference at this office at 2 o'clock p. m. Thursday, the 10 inst.

Yours very truly,

T. H. Humpherys,
STATE ENGINEER.

1-6

N.B. Since you are so far away it might not be practical for you to come to this conference. However, if you find it possible to attend, I would be very glad to see you.

T.H.H.
