

DUCHESNE-STRAWBERRY RIVER DISTRIBUTION SYSTEM

1962 ASSESSMENT

\*\* \$ 7,000.00 \*\*

BASIS OF ASSESSMENT:

The 1962 assessment is based upon the Commissioner's report of the previous 5-years delivery of water to each listed water user. Such years are:

1957	263,655.00	A/Feet
1958	242,096.00	A/Feet
1959	258,213.00	A/Feet
1960	245,873.00	A/Feet
1961	189,636.00	A/Feet

Total Five Years Delivery: 1,199,473.00 A/Feet

CALCULATION OF ASSESSMENT:

The five-year average of 1,199,473.00 acre-feet is 239,894.60 which is divided into \$ 7,000.00 equals \$ 0.0291794814 cost of one-pro-rated 5-year average acre-foot of water which multiplied by the water users's number of acre-foot average use is his/her 1962 share of the 1962 Assessment.

PROOF:

239,894.60 A/Ft times \$ 0.0291794814 equals \$ 7,000.00
