

March 11, 1960

Mr. Lorenzo F. Luke, Chairman,
Coal Creek Water Users'
Cedar City, Utah

Re: Coal Creek Distribution System

Dear Mr. Luke:

Mr. Clifton Johnson has just advised this office of the salary problem faced by Mr. Theron Ashcroft, after March 15, 1960, when in accordance with the official minutes of the Coal Creek Water Users', the State Engineer will take over the Distribution problems of such River System.

If your organization could possibly furnish to the State Engineer sufficient funds to pay such expenses until such time as the 1960 assessments are received in this office, then the Commissioner will not have any undue hardship.

Would you please be kind enough to advise me as soon as possible, if such funds can be forwarded, since the State Engineer is unable to meet such obligations at this time.

Very truly yours,

Frank Reese,
Business Manager
