Honorable Judge Don V. Tibbs  
 County Courthouse  
 Manti, Utah 84642

RE: Alvey Wash Distribution System

Dear Judge Tibbs:

The Alvey Wash Water User's Meeting was held in Escalante, Utah on April 24, 1975, as per your instructions. We truly regret that you were unable to attend the meeting and sincerely pray at this time that you are recovering satisfactorily from your encounter with the horse.

The meeting was uneventful in comparison with other years but we managed to cover all of the pertinent business and seemed to satisfy those questions posed on the administration. Effectively, the action required to put the system back into operation is your endorsement and appointment of the commissioner, Mr. Melvin Alvey, for the 1975 season. The water users have agreed with a budget of \$600.00 and an assessment of \$300.00 for this season and feel that Melvin is doing an adequate job.

If you have any questions please contact me. Take good care of yourself and we hope to see you back into action soon.

Yours truly,

Gerald W. Stoker  
 Area Engineer
