

ALVEY WASH DISTRIBUTION SYSTEM

** 1973 WATER ASSESSMENT **

\$ 600.00

FORWARD:

As per the attached copy of the 1973 minutes of the meeting of the water users and the state engineer, the 1973 water assessment is to be based upon the amount of water delivered during 1972.

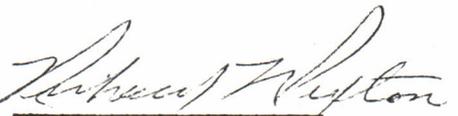

CALCULATION OF ASSESSMENT:

The total amount of acre-feet delivered during 1972 is shown to total 629.08 acre-feet. The individual amount as shown for each user is divided into this total amount to gain a percentage of the water used by each user. This percentage is then multiplied times \$ 600.00, which then equals his or her pro-rated 1973 Water assessment.

PROOF:

Each percentage multiplied times \$ 600.00 equals
100% of \$ 600.00.

April 18, 1973

1974 ASSESSMENT: (See above, based on same principle.)

Each percentage of water used during 1973 multiplied times
\$ 600.00 equals each individual 1974 water assessment.
