MEMORANDUM

TO: Donald C. Norseth, Distribution Engineer
Richard Pexton, Accountant

FROM: Gerald W. Stoker, Area Engineer

RE: Alvey Wash Distribution System

The Alvey Wash Water Commissioner, Mr. William Hathaway, has resigned his position effective December 20, 1972. He has returned his set of the Proposed Determination books and the records for the past irrigation season. These records are without any explanation and therefore the acre feet as shown per water user is an estimation only, computed by averaging the flows on a monthly basis.

If further detail is required it will be necessary to request that Mr. Hathaway record this information or come in person to give us that clarification.

Breakdown on Water Useage for 1972 Irrigation Season:

<u>Water User</u>	<u>Acre Feet Allowed</u>	<u>Delivered</u>	<u>% of Total</u>
McKay Bailey (J. C. Spencer Right)	75.00	96.45	15.33
Vay Barney	214.50	-0-	-0-
Thurman Spencer	81.90	9.30	1.48
Paul Steed (Zelma Wilson Right)	180.00	324.37	51.56
Leo Wilson	183.30		
1. North #2		123.68	
2. South #1		25.07	31.63
3. South #2		50.21	
Total	734.70	629.08	85.62

A copy of the minutes from the meeting held on June 6, 1972, are attached for your review and consideration. At this time we have no recommendations to be made for a new water commissioner. I assume that if we are successful in finding someone to take the position that we should be able to manage on the present budget. If you have any questions please contact this office.
