MEMORANDUM

TO: Donald C. Norseth, Distribution Engineer  
Richard R. Pexton, Accountant

FROM: Gerald W. Stock, Area Engineer

RE: Alvey Wash Distribution System

Mr. Melvin Alvey, Water Commissioner, has submitted the distribution records for the Alvey Wash Distribution System. These records concern the administration of the water rights and the distribution of the water on Alvey Wash, Garfield County, Utah. Apparently there were no problems on this system during 1975 that required the attention of the commissioner or the State Engineer.

It is noted for the record that the amount of water used differs from the 1974 season, in that, some of the users received more water during what was considered a "dry" irrigation season. Others received less water than they had the year before. There was not a report of delivery on the Vay Barney diversion and it is assumed at this point that no delivery was made.

This is the breakdown on the water useage for the 1975 irrigation season on Alvey Wash:

<u>Water User</u>	<u>Acre Feet Allowed</u>	<u>Delivered</u>	<u>% of Total</u>	
(1) Paul Steed Estate	180.00	315.72	51.57	1975 154.71
(4) Thurman Spencer	81.90	12.11	1.98	#300.0 5.94
(3) Leo Wilson #2 #3	183.30	175.43	28.65	85.95
(5) McKay Bailey	75.00	108.98	17.80	53.40
Vay Barney	214.50	0	0	
Total	734.70	612.24 (83.3%)		#300.00

cc: Mr. Melvin Alvey
