

ALVEY WASH DISTRIBUTION SYSTEM

** 1971 WATER ASSESSMENT **

\$ 625.00

FORWARD:

In accordance with the minutes of the meeting of March 8, 1971, the 1971 Water Assessment will be made on an irrigated acreage basis as set forth in the State Engineer's Proposed Determination of Water Rights.

CALCULATION OF ASSESSMENT:

It is determined that 244.90 acres of ground is to be irrigated. The total amount of the 1971 assessment equals \$ 625.00, therefore, \$ 625.00 divided by 244.90 equals \$ 2.552, cost of one pro-rata acre of ground, which multiplied by the number of acres of ground as determined equals his or her 1971 Water Assessment.

PROOF:

244.90 times \$ 2.552 equals \$ 625.00
