

NINE MILE DISTRIBUTION SYSTEM

** 1971 ASSESSMENT **

\$ 350.00

FORWARD:

As per the minutes of the meeting held with the water users of Nine Mile Distribution System and the State Engineer on February 22, 1971, it was determined that the amount of \$ 350.00 would be levied as the 1971 Water Assessment. It was further decided that assessment would be based "upon the water used at the diversions as indicated by the measurements made by the Southeastern Area Office through the month of August."

BASIS OF ASSESSMENT:

A report was submitted to the accounting department from the South Eastern Area State Engineer's Office of the amounts of CFS that was obtained from water measurements on the following dates: May 14, June 21, June 30, July 6 and Aug. 7. It showed that a total of 139.55 CFS was diverted during these dates. The average of these five readings for each user was calculated and these averages totaled 27.90 CFS. This amount is then divided into the total amount of the annual assessment of \$ 350.00, which equals a pro-rata cost \$ 12.54480287 per CFS. This cost multiplied times average of each users five measurements equals his or her pro-rata 1971 Water Assessment.

PROOF:

27.90 times \$ 12.54480287 equals \$ 350.00
