

Re: East Fork - Virgin

Glendale Utah.

March 30, 1962.

State Engineers Office.

Salt Lake City Utah.

c/o Wayne D. Criddle State Engineer.

Dear Mr. Criddle.

Referring to the charges or complaint made by Mr. Rex Bauer of Glendale Utah.

I have permission, and invitation from Mr. Bauer to request the full and exact complaints made against the water users and the way the distribution was handled of the water in the Virgin River.

There seems to be some misunderstandings as to the charges he made and we would appreciate it very much if you would give us this information.

I would also like to know if it would be permissible to use wooden weirs in measuring our water,

Thanking you very much for this information.

Yours Very Truly.
