STATE ENGINEER

Mr. Wallace B. Spencer
Water Commissioner, George Creek
Yost, Utah

Dear Mr. Spencer:

I received a voucher from you along with your suggested breakdown of assessments. I appreciate the assessment breakdown, however, feel that with the high water rights coming in for a small amount of water in 1963 that we should assess on an acre-foot basis.

On your mileage voucher, you have lumped 1963 and 1964 together. Our accounting department would like more details concerning your travel and breakdown as follows: from August 20th to October 1st; from October 1st to the beginning of the 1964 irrigation season and from April 1st to April 15th.

We should have included an item in the 1964 budget to cover this back travel. You may have to wait until we can see how much work there is and how much demand we will have on the budget in 1964 before we can shake loose the funds to pay your voucher. I trust this will meet with your approval.

I am returning your voucher for your convenience in giving the accounting department a breakdown.

Yours very truly,

Donald C. Norseth
