

MILFORD DISTRIBUTION SYSTEM

1964 ASSESSMENT

Budget: \$ 2,025.00

1964 Assm't: \$ 1,825.00

FORWARD: The 1964 Assessment of \$ 1,825.00 is based upon the actual delivery of water in 1963 as reported by Commissioner Lee Strong.

The Milford Commissioner's Annual Report shows 41,931.35 acre-feet of water was delivered in 1963, (Both surface and underground.) Therefore, \$ 1,825.00 (am't of the 1964 Assessment) divided by 41,931.35 Acre-feet of water equals \$ 0.0435235212, cost of one-acre foot of water. This amount multiplied times the amount of acre-foot of water used by each water user in 1963 as reported by the Commissioner equals his or her annual water assessment.

CALCULATION OF ASSESSMENT:

\$ 1,825.00 divided by 41,931.35 acre-feet of water equals \$ 0.0435235212 cost of one pro-rated acre foot of water. The 1964 Assessment equals \$ 0.0435235212 per acre-foot of water delivered.

PROOF:

\$ 0.0435235212 times 41,931.35 acre feet of water equals \$ 1,825.00
