

MILFORD DISTRIBUTION SYSTEM

1963 ASSESSMENT

Budget: \$ 1,766.00

Assessment: \$ 1,600.00

The 1963 Assessment of \$ 1,600.00 is based upon an actual delivery of water in 1962 as reported by Commissioner Lee Strong.

The Milford Commissioner's Annual Report shows that 42,717.20 acre-feet of water was delivered in 1962, (both surface and underground.)

Therefore, \$ 1,600.00 (am't of 1963 Annual Assessment) divided by 42,717.20 Acre-feet of water equals \$ 0.0374556389 cost of one acre-foot of water. This amount multiplied times the amount of acre-feet of water used by each water user in 1962 as reported by the Commissioner equals his or her annual assessment.

CALCULATION OF ASSESSMENT:

\$ 1,600.00 divided by 42,717.20 acre-feet of water equals \$ 0.0374556389 cost of one pro-rated acre foot of water. The 1963 Assessment equals \$ 0.0374556389 per acre foot of water delivered.
