

June 23, 1926.

Mr. Donald Jerman,  
Morgan, Utah.

Dear Mr. Jerman;

RE: TWIN AND CEDAR CREEK DISTRIBUTION.

I beg to acknowledge receipt of your letter of June 16 enclosing report on the distribution of the high waters from Twin and Cedar Creeks.

This report seems to be in excellent shape and I will have it gone over by those in the office familiar with the past experience of this distribution to see if there is anything which might be added.

Thanking you for your prompt attention.

Yours very truly,

State Engineer.
