

May 3, 1926,

Mr. C. W. Sorensen,
Mt. Pleasant, Utah,

Dear Mr. Sorensen:

Turn + Cedar Creeks.

RE: ~~SAN FITCH~~ DISTRIBUTION.

I have your letter of May 2nd, with reference to obtaining a Water Commissioner for you.

Since my last letter I think I have run on to a man, but it is absolutely necessary, in order to engage him for me to be able to say what his compensation will be. I have absolutely no funds at my disposal to pay him, and naturally I am interested in where his money is coming from. I think the law is perfectly clear that the distribution expense will have to be born by everyone using the water distributed, and that there is nothing to justify limiting the assessment to those who protest. I have already got in touch with Mr. Bowen, but he does not care to take the position. If you can let me know exactly how much money I can count on, I will renew my efforts.

Yours very truly,

State Engineer,

GMB:M
